## **Let us introduce: Progress Reports**

When lessons transferred online I missed visiting with all the parents. Admittedly, I thought it was a social interaction, but then I realized it's more than an opportunity to exchange pleasantries, it was a moment to communicate updates about the student's progress. After consulting Ellen and Timothonius we agreed that progress reports would ensure that the student, parent, and teacher understand what progress is being made and provides insights into current levels of achievement.

I would like to emphasize that the progress reports are to communicate areas of strength and what could be focused on moving forward. It should be used to help set goals and as a point of reference for continued lessons in the fall.

# The show will go on either in-person or online

Who else is craving a recital? Recently, a student asked if we were ever going to perform in a restaurant again because they wanted to order the chicken nuggets. It is good to know that I can use food to motivate students to attend recitals.

Despite the circumstances and regulations continually changing, we will have a recital. The plan is to host it outdoors and socially distanced, but if other factors work against us we will go online. Either way, the recital will occur at the end of June! The students will have something to work towards! If anyone has insights on large outdoor spaces please get in touch with Lauren.

## Timothonius is co-producing Calgary's finest

Have you been keeping up with Timothonius? This last year he has shifted focus to producing and working with some of the city's most prominent names! His most recent collaboration is with the sultry R&B singer Justine Tyrell, co-producing her EP: *While You Were Sleeping*. Timothonius has found his groove pumping out smooth beats and is open to sharing his abilities in music production with students who are interested.

Learn more about Timothonius on his YouTube channel and check out his feature video with The Taylor Centre Online.

## La-La Lauren's website overhaul

The website received a makeover! Although the fundamental information has stayed the same, we have a few new additions. The Resource page has printable theory worksheets. To explore go to [www.lalalaurensmusic.com](http://www.lalalaurensmusic.com).

## Ellen is cooking up something new

Voice instructor Ellen, has embarked on a new passion project creating mouth-watering cooking videos. These short instagram videos are tantalizing! My personal review is that Ellen channels a Bob Ross charisma: uplifting, motivating, and soothing. Dumplings are one of Ellen's favourite foods, which is why it is no surprise that her first video is concocting a Thai Sweet Pork Dumplings with Som Tam inspired dipping sauce. *Yum!* We are eagerly awaiting her third video.

Check out her page at [Ellencooksstuff](https://www.ellencooksstuff.com) to excite your taste buds!
